

HD2TB

Hard disk drive

Capacity 2 TB

SATA interface 6 GB/s

Model WD20PURX

Especially for Video Recorders

Loose or installed in DVR

Hard disk drive of 2 TB in format 3.5" with SATA interface 6 Gb/s.

Model WD20PURX of the manufacturer Western Digital. Designed and manufactured specifically for the storage of video surveillance systems of up to 32 HD cameras and 8 hard disk drives. Ensure optimum operation permanently during 24 hours, the 7 weekdays, at high temperatures.

This model minimizes noise, vibration, and power consumption, extending the life of the hard disc drive compared to conventional HDD. On the other hand, it increases storage reliability of audio/video by the AllFrame technology, which reduces the loss of images, improves the viewing and increase the number of compartments supported. The failure rate is greatly reduced thanks to strict functional integrity testing made at the factory.

The hard drive is delivered loose or installed in any of our video recorders.

Specifications

Capacity	2 TB
Interface	SATA
Transfer Rate	6 Gb/s
Model	WD20PURX
Manufacturer	Western Digital
Buffer size	64 MB
Temp. operation	0° C ~ +65° C
