MARCA BLANCA ABL-J5003

Laser Barrier Detector - Wired | 3 beams - Max distance. The detection 500 m - Simple installation with LED and aligner (ABL-JYD) - NC/NO relay outputs - Power 12~24 VDC/VAC

- Triple beam outdoor laser barrier
- Wired
- Maximum sender / receiver detection 500 m (exterior)
- Triple adjustable lens
- H: $\pm 15^\circ$ / V: $\pm 15^\circ$
- DIP Switch for programming
- Intelligent working frequencies to avoid false alarms
- Configurable alarm jump
- Easy programming over LED Display
- Stainless steel metal casing
- Weatherproof IP67
- Power 12~24 VDC/VAC
