UNI-TREND UT219M

Current clamp - DC measurement up to 1000V - Measurement in AC up to 1000V and 600A - Resistance/capacitance/frequency/temperature - Auto Range | Diode Test | True RMS - Clamp opening of 33mm

- UNI-T
- Current clamp CAT IV 600V
- LED backlight display up to 6000 accounts
- AC and DC voltage measurement up to 1000V
- AC current measurement up to 600 A
- High accuracy in AC with built-in True RMS function
- LPF filter
- Resistance, Capacitance and Frequency Measurement
- Temperature measurement between -40°C~1000°C
- Buzzer for continuity test
- NCV (non-contact voltage) function
- Diode test
- Motor test 3-phase
- Zero mode function
- Automatic shutdown
