UNI-TREND UT572

Earth Resistance Meter - LCD Display - Earth resistance measurement up to 40k Ω - Ground resistivity measurement up to 40k Ω - Data storage - Automatic shutdown

- UNI-T
- CAT III earth resistance meter 600V
- Backlit LCD display
- Earth and ground resistance measurement up to 40k Ω
- Performs test at frequencies of 94/128Hz
- Ground resistivity test of sections up to 40m
- Double earth resistance test: RH and RS
- RK resistance compensation test
- Data storage
- Data blocking
- Automatic shutdown
- Low battery indicator
