UNI-TREND UT675A

Battery tester - Measures capacitance, voltage, resistance and status - Battery charging and starting test 12V/24V - Suitable for testing up to 10 battery types - PC connection via USB

- UNI-T
- Battery meter
- Display with capacity, voltage, resistance and battery life
- Lead acid battery starting test 12V
- Battery charging and starting system test of 12/24V
- PC connection via USB
